

# VENKATA RAMANACHARY EDULAPURAM

## DEVOPS ENGINEER

Hyderabad | 9908982837 | venkatvenkychary@gmail.com

### SUMMARY

I'm a DevOps Engineer with 3.5 years of hands-on experience in building reliable systems and automating software delivery. I've worked with tools like Docker, Kubernetes, Jenkins, and Terraform to set up CI/CD pipelines and manage cloud infrastructure using AWS and Azure. My strength lies in helping development and operations teams collaborate better, reducing deployment issues, and improving system performance. I enjoy solving problems, streamlining processes, and constantly learning new technologies to keep things running smoothly and efficiently.

### TECHNICAL SKILLS

- Cloud Platforms: AWS
- CI/CD Tools: Jenkins
- Containerization: Docker, Kubernetes
- Infrastructure as Code: Terraform, Ansible
- Monitoring and Logging: Prometheus, Grafana
- Version Control: Git, GitHub
- Scripting: Bash
- Collaboration Tools: JIRA
- Databases: MySQL, PostgreSQL
- Operating Systems: Linux (Ubuntu, CentOS)

### PROFESSIONAL EXPERIENCE

#### DevOps Engineer - LTIMINDTREE

Jan 2022 - Present

- Implemented and maintained CI/CD pipelines using Jenkins for automated software delivery, resulting in a 30% reduction in deployment times.
- Collaborated with development and operations teams to automate infrastructure provisioning using Terraform and managed infrastructure on AWS and Azure cloud platforms.
- Conducted regular code reviews to ensure compliance with DevOps best practices and coding standards.
- Employed Docker and Kubernetes for containerization and orchestration, reducing application downtime by 20%. Created and managed monitoring and alerting systems with tools like Prometheus and Grafana, leading to proactive issue resolution.
- Conducted real-time troubleshooting of production issues, reducing mean time to resolution (MTTR) by 25%.
- Collaborated in cross-functional teams to design and implement disaster recovery and high-availability solutions.
- Implemented automated testing frameworks and integrated them into CI/CD pipelines to enhance code quality.
- Utilized Ansible for configuration management and automation of routine tasks, resulting in improved system stability.
- Participated in on-call rotations to ensure 24/7 support and rapid incident response.

### EDUCATION

#### B.Tech in Information Technology

2018 - 2021

Kakatiya University College of Engineering and Technology

### CERTIFICATIONS

- Google Cloud Certified - Associate Cloud Engineer
- Google Cloud Certified - Professional Cloud Architect
- Microsoft Certified - Azure Fundamentals
